ABOUT ME

A passionate Front-End Developer with hands-on experience from bootcamp and real-world projects. Skilled in React.js, React Native, HTML, CSS, Tailwind, and RESTful API integration. Proficient in building responsive, maintainable UIs with modern development practices. Fast learner, adaptable, and collaborative in Agile environments

EDUCATION

2017 - 2020	Contemporary Music (Non-Classical/Pop)
SMKN 11 Medan	Developed creativity, discipline, and teamwork skills through contemporary music activities. This experience strengthened my communication, collaboration, and time management abilities, which I also apply in the field of programming.

EXPERIENCE

Sep 2025 – Present	Front End Developer (Project-Based)
Wong Ryant Tours Website	Developed a responsive tour and travel website using React and Tailwind CSS, focusing on UI component design and modern layouts to enhance booking experiences, attract customers, and increase engagement.
2016 - 2020	Front End Developer (Project-Based)
Universitas Gunadharma	Built a responsive web platform for Universitas Gunadharma – Pusat Studi Multimedia & Robotika using React, Tailwind CSS, and Supabase, enabling students to register for workshops, access journals, and enjoy an optimized user experience.
June 2025 – July 2025	Front End Developer (Project-Based)
CBT Korean Tryouts	Created a responsive CBT platform for Korean tryouts using React and Tailwind CSS, in collaboration with a Java Spring Boot backend and Gemini AI, delivering key features such as question navigation, timer, API integration, automated result analysis, and participant feedback.

SKILLS

- HTML
 - CSS
 - JavaScript
- React.js
 - Tailwind CSS
 - Bootstrap
- Supabase
 - PostgreSQL
 - RESTful API Integration
- Git, GitHub, GitLab

TOOLS & WORKFLOW

- Git & GitHub/GitLab
- RESTful API
- Agile/Scrum
- VS Code
- Trello
- Figma
